

## Nook (Tablets with access to apps)

Please use these instructions for any Nook Tablet that has access to apps.

From your device, go to the Barnes and Noble App store.

<http://www.barnesandnoble.com/w/overdrive-media-console-overdrive-inc/1113021293>

Locate the free OverDrive Media Console app. This enables users to wirelessly borrow eBooks and MP3 audiobooks from the library.

You will need to authorize your device with an Adobe ID. If you do not have one, you will be prompted to create one.

Go back to your Overdrive Media Console App. Tap the “menu” button at the bottom of the screen (three lines inside a circle), then “App Settings.” Enter the Adobe ID and password that you just created and tap the Authorize button. This setup will only need to be done once.

From your new app, visit the Georgia Download Destination: [gadd.lib.overdrive.com](http://gadd.lib.overdrive.com)

From the My Account tab, select Athens Regional Library System as your library. Enter your PINES library card number and your PINES password.

Use the Quick Search or the Advanced Search options to search for eBooks. Then, check out any eBooks with the OEPUB or EPUB icon and download. If there are no copies available, then you can place a hold on the eBook by selecting “Place a hold.”
