The budget also includes $.70 per capita for materials, and MRR and technology funding. Of course, nothing is final until the Governor signs off.

The AUP for FY22 is complete. We received 7 findings. Four of the seven findings were due to the FY22 change of our financial software Blackbaud, to the new software MIP. Clark Outsourcing continues to work hard on cleaning up the issues that the migration presented. Two findings were due to late filing with the state. Finally, Ms Bell informed the Board that she and Ms. Plaksin had submitted a proposal to Rapheal Warnock’s Appropriations Committee. The East Side library was initially planned to be 30,000 sqft. Due to the rising cost of labor and materials, unfortunately, the budget will only allow a 16,000 sqft library. If we are awarded funds, they will be used to address this issue. A representative from Warnock’s office visited ACCL. She was taken on a tour of the library and was very impressed. Ms. Bell will keep the Board updated.
